

IMPLEMENTING PARTNERS FACT SHEET

Gender-Based Violence Workstream

Project Brief

The project supports women affected by Gender-Based Violence (GBV), including women from ethnic minority groups and women with disabilities, to access quality health care, legal protection, and other social services.

Project Outcomes

- The GBV Working Groups and the Women and Children Consultative Committee (WCCC) at the provincial and district level in Ratanakiri province have improved coordination, reporting and monitoring of the implementation of GBV prevention and response programs targeting women, including those from minority groups and women with disabilities.
- Health service providers in Ratanakiri and Kampong Speu province provide sensitive, inclusive and culturally appropriate medical care services, and strengthen support for coordination of referral services for diverse women who experience violence, including women with disabilities.
- Sub-national authorities respond to the needs of women experiencing violence in a timely, sensitive, inclusive, and non-discriminatory manner, including GBV prevention strategies, plans and initiatives.

Key Interventions

- Training and coaching sessions for health centre professionals on the National Guidelines for Managing Violence Against Women in the Health System.
- Training sessions for health centre professional and GBV Working Groups on Sexual Harassment, Social Analysis and Action (SAA) and Attitude.
- Support the establishment and capacity development of GBV Working Groups.
- Training and coaching sessions for health centres and GBV Working Groups on Minimum Standards of Basic Counselling and Referral Guidelines.
- Training sessions to the Provincial Department of Women's Affairs (PDoWA), Judicial Police Officers (JPO), Judicial Police Agents (JPA) and key service providers on legal service provision.
- Training sessions for Commune Councils on Standard Operating Procedures and Commune Investment Plans (CIP).
- Training session for new Village Health Support Group on Community Outreach GBV, service provision and referral.
- Re-print the leaflets from the Elimination of Violence Against Women (EVAW) program
- Update the mapping of GBV support services.
